Strategic Planning Committee

September 12, 2024

FIU, Modesto A. Maidique Campus, Graham Center Ballrooms

MINUTES

1. Call to Order and Chair's Remarks

The Florida International University Board of Trustees' Strategic Planning Committee meeting was called to order by Committee Chair Carlos A. Duarte at 12:26 PM on Thursday, September 12, 2024.

General Counsel Carlos B. Castillo conducted roll call of the Strategic Planning Committee members and verified a quorum. Present were Trustees Carlos A. Duarte, *Committee Chair*; Dean C. Colson; Yaffa Popack (*Zoom*); Gene Prescott; Marc D. Sarnoff; and Roger Tovar, *Board Chair*.

Trustee Natasha Lowell, *Committee Vice Chair* was excused.

The following Board members were also in attendance: Trustees Noël C. Barengo, Francesca Casanova, Alan Gonzalez, Francis A. Hondal, and Alberto R. Taño.

Committee Chair Duarte welcomed Trustees, University leadership, members of the University community, and general public. He stated that the Strategic Planning Committee would be reviewing the University's 2030 Strategic Plan noting that it builds on many of FIU's successes and lays the foundation for future success. He thanked the administration, faculty, and staff for their work. He also thanked the University community for participating in the process, and for sharing thoughts, feedback, perspective and ideas at the listening and visioning sessions.

2. Approval of Minutes

Committee Chair Duarte asked if there were any additions or corrections to the minutes of the Strategic Planning Committee meeting held on April 25, 2024, and workshops held on April 12, 2024, and August 12, 2024. Hearing none, a motion was made and unanimously passed to approve the minutes of the Strategic Planning Committee meeting held on April 25, 2024, and workshops held on April 12, 2024, and August 12, 2024.

3. Action Item

SP1. Strategic Plan

University President Kenneth A. Jessell explained that the strategic planning process began in the summer of 2023 in parallel with the campus master planning process. He stated that three (3) committees were formed, over a dozen workshops were held to engage members of the University community, the Board of Trustees held workshops in April and August 2024, and that the FIU Faculty Senate approved the 2030 Strategic Plan. He commented on FIU's mission, vision, and values to highlight how they are still serving the University. He pointed out that the only change

made to the vision was for FIU to become a Top 30 Public University by 2030. President Jessell provided an overview of the key commitments including: 1) creating exceptional opportunities, 2) leveraging evidence-based outcomes and data-driven decision making, 3) expanding impact through investing in the community, and 4) implementing a sustainable and agile infrastructure. He shared that in 2030 FIU will be a Top 30 Public University, destination university for innovative education and cutting-edge research, an employer of choice, leader in economic and societal impact, and a model for 21st century public higher education. He reviewed the three (3) strategic focus areas and three (3) pillars. He detailed the strategic focus areas namely, Environment and Environmental Resilience, Health, and Technology and Innovation. He also delineated the goals and related accountability metrics of the pillars which are the FIU Experience, Research Excellence, and Strategic Alliances. President Jessell highlighted recent achievements under the FIU Next Horizon Strategic Plan 2025 metrics.

Provost and Executive Vice President Elizabeth M. Bejar explained that the 2030 Strategic Plan provided to the Board was close to final and the resolution provides for refinement based on the conversations with the Strategic Planning Committee. She also clarified that the goal of Top 30 Public University and Top 75 National University is included in the narrative. Provost Bejar outlined the 2030 goals that are included in the narrative of the strategic plan. She highlighted the first-time in college (FTIC) four (4) year graduation rate being 64.9% in 2024 as opposed to 38.9% in 2018. She commented on research expenditure goals for 2030. She mentioned that co-chairs of the strategic planning process were in attendance and recognized them. Provost Bejar shared that certain disciplines will be pushed to increase in the rankings as part of the implementation of the Top 30 Public University goal. Committee Chair Duarte requested that Trustee Francis A. Hondal's inquiry, relating to a delineation of the goals critical to student success and rankings, be discussed at the next meeting of the Strategic Planning Committee. President Jessell advised that many of the concepts presented in the 2030 Strategic Plan are also part of the FIU Accountability Plan.

A motion was made and unanimously passed to recommend that the Florida International University Board of Trustees (1) approve the 2030 Strategic Plan and (2) delegate authority to the University President to perform finish editing as needed and to amend consistent with comments received from the Board of Governors.

4. New Business

Trustee Hondal requested that the 2030 Strategic Plan strategies for brand and communications be presented at the next FIU Board of Trustees External Relations Committee meeting.

5. Concluding Remarks and Adjournment

With no other new business, Committee Chair Carlos A. Duarte adjourned the meeting of the Florida International University Board of Trustees Strategic Planning Committee on Thursday, September 12, 2024, at 12:56 PM.

April 15, 2025

Subject: Florida International University Annual Accountability Plan, 2025

Proposed Action:

Florida International University Board of Trustees approval of (1) Florida International University's Annual Accountability Plan as provided in the Board materials and (2) delegation of authority to the University President to perform finish editing as needed and to amend consistent with comments received from the Florida Board of Governors (BOG).

Background Information:

BOG Regulation 2.002(2)(3), University Accountability Plans, provides, in relevant part, that each university's accountability plan shall reflect the institution's distinctive mission and focus on core institutional strengths within the context of State University System goals and regional and statewide needs; and each board of trustees shall prepare an accountability plan and submit updates on an annual basis for consideration by the Board of Governors. The accountability plan shall outline the university's top priorities, strategic directions, and specific actions for achieving those priorities, as well as progress towards previously approved institutional and System-wide goals.

This document may require finish editing or necessary updates. Additionally, the BOG may require changes to the annual report. Therefore, a delegation of authority to the University President to make changes as necessary is being requested.

INTRODUCTION

The Accountability Plan is an annual report that is closely aligned with the Board of Governors' 2025 System Strategic Plan. This report enhances the System's commitment to accountability and strategic planning by fostering greater coordination between institutional administrators, University Boards of Trustees and the Board of Governors regarding each institution's direction and priorities as well as performance expectations and outcomes on institutional and System-wide goals.

Once an Accountability Plan is approved by each institution's respective Boards of Trustees, the Board of Governors will review and consider the plan for approval, excluding those sections of the Plan that require additional regulatory or procedural approval pursuant to law or Board regulations.

Beginning with the 2023 Accountability Plans, all universities must comply with Recommendation II of the Board's Civil Discourse Final Report adopted by the Board in January 2022.

Recommendation II recommends that "each university's Accountability Plan ... include a specific endorsement of the Board's Statement of Free Expression, as well as a clear expectation for open-minded and tolerant civil discourse throughout the campus community." This statement may appear in any of these narrative portions: Mission, Statement of Strategy; or Strengths, Opportunities, and Challenges.

STRATEGY

Mission Statement

Florida International University (FIU) is an urban, multi-campus, public research university serving its students and the diverse population of South Florida. We are committed to high-quality teaching, state-of-the-art research and creative activity, and collaborative engagement with our local and global communities.

Statement of Strategy

Florida International University (FIU) is a Carnegie R1, preeminent state public research university committed to making an impact locally, in the State of Florida, and around the country and the world. With over 55,000 students, FIU has leveraged its scale and is proud to have more than 330,000 alumni leading across industries and sectors, most of which have chosen to build their families and careers in Florida. FIU's strategy is grounded in the *Experience Impact 2030* Strategic Plan, which focuses our university's priorities around three pillars: the FIU Experience; Research Excellence; and Strategic Alliances.

We aim for our students, alumni and community to have an exceptional experience – from academic excellence, student success, extracurricular offerings, facilities, campus life and activities – we expect only the best for our students. We aim to continue to grow our research portfolio and invest in the three Strategic Focus Areas of environment and environmental resilience, health, and innovation and technology. Additionally, as an engine of economic growth and social mobility, we seek to build clinical, industry, academic, and government partnerships that will continue our incredible trajectory of growth and impact.

We continue to support the mission of the State University System of Florida, especially in ensuring student success, research excellence, and the economic and social mobility of our citizens. We are proud to have achieved \$326 million in research expenditures in 2024 and contribute toward the system's \$2 billion goal. Our external rankings also continue to highlight the incredible accomplishments of our students, faculty, and staff.

FIU continued its rise in national and international rankings in 2024. FIU is now recognized as a TOP 50 public university by *US News*, *The Wall Street Journal*, *Washington Monthly*, *QS World Rankings*, and *Times Higher Education*. U.S. News ranks FIU a TOP 100 Overall National University. Additionally, FIU was ranked as the #1 university in Florida by the *Wall Street Journal* and *Washington Monthly*. Many individual programs are ranked as leaders in their respective fields, including *U.S. News's* ranking International Business at No. 2.

FIU endorses the Florida Board of Governors' Statement of Free Expression to support and encourage full and open discourse and the robust exchange of ideas and perspectives on our campuses. In addition to supporting this legal right, we view this as an integral part of our ability to deliver a high-quality academic experience for our students, engage in meaningful and productive research, and provide valuable public service.

FIU's focus on evidence-based learning outcomes and cutting-edge research has propelled our national rankings, increased the economic mobility of our students and our community, and led to our designation as a Preeminent university in the State of Florida. Building on these successes, FIU's *Experience Impact 2030* Strategic Plan provides a strong vision for our next 50 years and is aligned with the goals of the *SUS 30 Extraordinary Impact* strategic plan.

STRATEGY (cont.)

Graduation Rate Improvement Plan Update

FIU increased our First Time in College (FTIC) 4-year graduation rate to a high of 70 percent for 2023-24; and the overall first to second year retention rate to a high of 92 percent. The University continues efforts to intentionally monitor retention and graduation rates at the university, college, and program level, and implement targeted outreach interventions to support retention and on-time graduation.

Additionally, FIU continues to support efforts related to improving teaching, including the Gateway Project, Gateway to Graduation (G2G) Project, the Provost's Hybrid Program, and the Quality Matters initiatives. These efforts are centered on supporting faculty in a continuous improvement cycle that uses data from their own classrooms to modify instructional design and learning environments to improve the student's learning experience and improve passing rates and persistence to degree. The Gateway project now directly supports 25 courses with more than 40,000 enrolled students annually. Since inception in AY 2013-2014, the average passing rate has increased from 65% to 81% (up from 78% in AY 2022-2023) resulting in more than 50,600 seats saved.

The Gateway project now opens its doors to any faculty member that would like to participate in the continuous improvement cycle. In AY 2023-2024, 182 faculty teaching 975 sections of 97 courses used the Gateway survey to collect data on students' learning experience, resulting in 18,600 student responses. Results indicate significant increases in responses related to feeling prepared for class sessions, feeling attendance was important, receiving enough helpful feedback, and comfort in asking questions in class. This aligns with faculty reported improvement strategies. The Gateway-to-Graduation (G2G) targets courses that have a high impact on 4-year graduation rates by including faculty, often tenure-track, in the continuous improvement process.

The Provost's Hybrid Program continues to certify faculty through an intensive, semester-long course design institute. There are currently 876 certified faculty with 475 teaching 751 sections of hybrid courses in Fall 2024. A comparison of outcomes in hybrid courses to on-campus and online courses indicate that while student success in hybrid courses is at least on par with other modalities, students rate their experience in hybrid courses more positively in almost all measures of engagement and learning assessed using the Gateway survey.

The Quality Matters (QM) project ensures that online courses at FIU meet national standards in course organization, content delivery, and student engagement. FIU Online is a national leader in the quality of online education, holding the #1 ranking for Quality Matters certified courses since 2021. Our commitment to excellence continues to drive our efforts, having begun in 2011—well ahead of state mandates—with the certification of our first QM course. Today, we certify courses at scale, with 854 courses earning QM certifications. Through our Panther High Quality initiative, launched in 2019 in alignment with Florida Board of Governors' 2025 Strategic Plan, we have certified 604 courses further strengthening our quality standards. This proactive approach to quality assurance not only met the Florida Board of Governors' 2025 Strategic Plan requirements but also reinforces FIU's role as an innovative leader in online education excellence.

Finally, the University's Strategic Plan *Experience Impact 2030* was recently approved by the FIU Board of Trustees and by the Florida Board of Governors. One of three pillars in the Strategic Plan focuses on the FIU Experience with a primary goal of intentionally designing the student journey. This year, FIU will begin efforts to map the student journey to ensure students know how to engage in experiential learning and high-impact practices. FIU will also begin work to enhance and expand student programming, activities, and organizations that engage students.

STRATEGY (cont.)

Key Achievements for Last Year (Student, Faculty, Program, Institutional)

- In 2024, FIU achieved its highest ranking ever in the 2025 U.S. News and World Report, ranking 46th among public universities—an increase of 84 spots among public universities and 120 spots overall in the past decade. FIU ranked 1st in the nation for social mobility and 15th for most innovative, and remained 2nd for undergraduate international business for the sixth consecutive year.
- In Fall 2024, The Wall Street Journal ranked FIU one of America's best colleges for 2025 – ranked 31st among public universities and 1st in the Florida, also placing FIU in the top 6 for social mobility and first in the nation for student experience at a public university.
- In Spring 2024, Degree Choices ranked FIU 8th nationally for return on investment, based on the cost of attending and the earnings a student can expect.
- In Fall 2024, Washington Monthly ranked FIU among the top three public universities in the nation and 1st in Florida in its annual College Guide and Rankings, which recognizes universities for both research excellence and their efforts to ensure the success of all students.
- FIU earned the highest score in the State University System for performance-based funding according to the Florida Board of Governors metrics.
- The Adam Smith Center for Economic Freedom expanded its academic, co-curricular, and experiential offerings. This investment will build on the strong foundation of the Center, including innovative study groups lead Senior Leadership Fellows. The Fellows are all top level former government leaders, including Presidents and Prime Ministers, from the US, Latin America and Europe.
- FIU earned the Carnegie Foundation's Elective Classification in Leadership for Public Purpose, one of only 25 institutions nationwide to receive this honor. This remarkable achievement is a testament to our unwavering commitment to excellence, innovation, and public service.
- FIU Law's graduates continue having success on the Florida Bar exam, exceeding 90% on the July 2024 bar exam.
- SOBEWFF® engaged 1,500+ students, generating \$1.5–\$2 million annually for scholarships. Programs like the Bacardi Center of Excellence and Vidal-Duart Wine Studies offered hands-on learning, networking, and industry certifications.
- FIU was proud to have its designation as one of APLU's Innovation and Economic Prosperity (IEP) renewed in 2024.
- In Spring 2025, The Chaplin School ranked 31st worldwide and 4th in the U.S. for hospitality management (QS World Rankings 2025). It secured \$256,753 in NACUFS grants for Future of Foodservice research and launched a Doctorate in Business Administration (DBA) in Hospitality Management.
- FIU Medicine's Career Advising Program won the 2024 Careers in Medicine Excellence Award from the AAMC, and for the second year in a row, 100% of HWCOC's graduates who participated in *The Match* secured a residency.
- The 2025 QS World Rankings recognized FIU's Architecture program in The College of Communications, Architecture & the Arts (CARTA) as a Top 25 program.
- FIU secured nearly \$10 million to establish the DoD Center of Excellence for Integrated Renewable Energy and Energy Storage (CIREES), aimed at enhancing the U.S. Army's operational readiness through advanced renewable energy systems and battery storage solutions. CIREES will not only deliver innovative solutions for the U.S. Army but also prepare a highly skilled workforce of engineers to tackle the challenges in energy security, resilience and efficiency to support our nation's military readiness.

STRATEGY (cont.)

Performance-Based Funding Goal Adjustments

Performance-Based Funding metrics 6 and 8 were adjusted to reflect university-benchmarked data for the new programs of strategic emphasis that were identified by the Board of Governors.

STRATEGY (cont.)

Enrollment Management

Florida International University (FIU) is committed to transforming lives through the delivery of high-quality education, groundbreaking research, and active community engagement. Our enrollment management strategy is designed to uphold this commitment.

The FIU *Experience Impact 2030* Strategic plan outlines key goals related to ensuring that FIU is a destination university for students across the state, nation, and globe. To achieve this goal, FIU remains focused on:

1. Providing every student with an exceptional and seamless student success experience that gives them the knowledge, skills, and abilities they need to succeed;
2. Maximizing the Return on Investment of an FIU degree with a focus on equipping students with the skills and knowledge needed to meet the evolving demands of the state's workforce in critical areas; and
3. Investing in academic innovation, both through our degree programs and our research.

FIU is committed to meeting the educational needs of Florida's FTIC population; with a commitment to offer a high-quality education to qualified and talented students in the state. FIU will also continue to work with our key state college partners to ensure we are developing transfer pathways that support student success and create a seamless transition. By providing these pathways for student success, we contribute to the social and economic mobility of our community and beyond.

FIU is dedicated to preparing graduate students to meet the demands of Florida's and the nation's growing economies. We are focused on maintaining enrollment in master's degree programs that align with the needs of our local and state economies, providing students with the skills and expertise necessary to excel in their respective fields. Additionally, we are committed to maintaining doctoral degree offerings to enhance knowledge generation and research excellence, further solidifying FIU's position as a leader in cutting-edge research and innovation.

TOTAL	50,622	49,693	48,782	47,953	48,696	49,336	49,804	50,343	50,590	50,673

Note: This table reports this number of students enrolled by student type categories. These headcounts only include those seeking a degree – unclassified students (e.g., dual enrolled) are not included. The student type for undergraduates is based on the 'Type of Student at Most Recent Admission'. The First Time in College (FTIC) student was admitted in the same fall term or in the preceding summer term – this includes those who were re-admitted as FTICs, as well as FTIC—FCS AA Transfer Students earning an Associate in Arts degree from a Florida College System Institution prior to high school graduation.

Note: Full-time Equivalent (FTE) student is a measure of all instructional activity (regardless of fundability) that is based on the number of credit hours for all students during an academic (summer, fall, spring) year. Small differences found when totaling FTE by course level are due to rounding. FTE is based on the standard national definition, which divides undergraduate credit hours by 30 and graduate credit hours by 24. Pursuant to section 1013.31, Florida Statutes, Board facilities staff use this data as a key factor in the calculation of facility space needs for university educational plant surveys.

ENROLLMENT PLANNING (cont.)

Percent FTE Enrollment by Method of Instruction

	2019- 20	2020- 21	2021- 22	2022- 23	2023- 24	2024- 25	2025- 26	2026- 27	2027- 28	2028- 29	2030- 31

Primarily Dist. (80-99%)	0	0	0	0	0	0	0	0	0	0	0
Flex	0	0	0	0	0	0	0	0	0	0	0
Hybrid (50-79%)	10	12	13	11	10	13	13	13	13	13	13
Classroom (0-49%)	61	14	49	52	53	57	57	57	57	57	57

Note: Effective for the Fall 2020 term, Board staff added a new FLEX value to capture the course sections in which there is a mix of modalities within the same course section that allows students the option to switch between the modalities during the term. See definitions sections for a detailed description. Small differences found when totaling FTE by method of instruction are due to rounding. Pursuant to section 1013.31, Florida Statutes, Board facilities staff use this data as a key factor in the calculation of facility space needs for university educational plant surveys.

DEFINITIONS

Performance Based Funding (PBF)

PBF-1. Percent of Bachelor's Graduates Enrolled or Employed (\$40,000+) One Year After Graduation: This metric is based on the percentage of a graduating class of bachelor's degree recipients who are enrolled or employed (earning at least \$40,000) somewhere in the United States. This data includes non-Florida data from all states and districts, including the District of Columbia and Puerto Rico; and military enlistment as reported by the institutions. Students who do not have valid social security numbers and are not found enrolled are excluded. Students not found enrolled following graduation and/or employed are also excluded. Sources: State University Database System (SUDS), Florida Department of Commerce analysis of State Wage Interchange System (SWIS), and National Student Clearinghouse (NSC).

PBF-2. Median Wages of Bachelor's Graduates Employed Full-Time One Year After Graduation: This metric is based on annualized Unemployment Insurance (UI) wage data from the fourth fiscal quarter after graduation for bachelor's recipients. This data does not include individuals who are self-employed, employed by the military, those without a valid social security number, or making less than minimum wage. This data now includes non-Florida data from all states and districts, including the District of Columbia and Puerto Rico. Sources: State University Database System (SUDS) and Florida Department of Commerce analysis of State Wage Interchange System (SWIS).

PBF-3. Cost to the Student Net Tuition & Fees for Resident Undergraduates per 120 Credit Hours: This metric compares the average sticker price and the average gift aid amount. The sticker price includes: (1) tuition and fees for resident undergraduates; (2) books and supplies (we use a proxy as calculated by the College Board); and (3) the average number of credit hours attempted by students who were admitted as an FTIC student who graduated with a bachelor's degree from a program that requires only 120 credit hours. The gift aid amount includes: (1) financial aid (grants, scholarships, waivers and third-party payments) provided to resident undergraduate students during the most recent academic year; (2) the total number of credit hours for those resident undergraduates. The average gift aid award per credit hour was multiplied by 120 and compared to the sticker price. Sources: State University Database System (SUDS), the Legislature's annual General Appropriations Act, and university required fees as approved by the Florida Board of Governors.

PBF-4. Four Year FTIC Graduation Rate: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-time in their first semester and had graduated from the same institution by the summer term of their fourth year. Students who were enrolled in advanced graduate programs during their 4th year were excluded. Source: State University Database System (SUDS).

PBF-5. Academic Progress Rate [2nd Year Retention with 2.0 GPA or Above]: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-time in their first semester and were still enrolled in the same institution during the next fall term with a grade point average (GPA) of at least 2.0 at the end of their first year (fall, spring, summer). Source: State University Database System (SUDS).

DEFINITIONS (cont.)

PBF-6: Bachelor's Degrees within Programs of Strategic Emphasis: This metric is based on the number of baccalaureate degrees awarded within the programs designated by the Board of Governors as 'Programs of Strategic Emphasis.' A student who has multiple majors in the subset of targeted Classification of Instruction Program codes will be counted twice (i.e., double-majors are included). Source: State University Database System (SUDS).

PBF-7: University Access Rate Percent of Undergraduates with a Pell Grant: This metric is based the number of undergraduates enrolled during the fall term who received a Pell Grant during the fall term. Students who were not eligible for Pell Grants (e.g., unclassified, non-resident aliens, post-baccalaureate students) were excluded from the denominator for this metric. Source: State University Database System (SUDS).

PBF-8a: Graduate Degrees within Programs of Strategic Emphasis: This metric is based on the number of graduate degrees awarded within the programs designated by the Board of Governors as 'Programs of Strategic Emphasis.' A student who has multiple majors in the subset of targeted Classification of Instruction Program codes will be counted twice (i.e., double majors are included). Source: State University Database System (SUDS).

PBF-8b: Percentage of Newly Admitted FTICs with High School GPA of a 4.0 or Higher: (*Applies only to New College of Florida*): Percent of all degree-seeking, first-time, first-year (freshman) students who had a high school grade point average of a 4.0 or higher. Source: State University Database System (SUDS).

PBF-9a: FCS AA Transfer Three-Year Graduation Rate [Full- and part-time students]: This transfer cohort is defined as undergraduates entering in fall term (or summer continuing to fall) from the Florida College System with an Associate in Arts (AA) degree. The rate is the percentage of the initial cohort that has either graduated from the same institution by the summer term of their third academic year. Both full-time and part-time students are used in the calculation. Students who were flagged as enrolled in advanced graduate programs that would not earn a bachelor's degree are excluded. Source: State University Database System (SUDS).

PBF-9b: FTIC Pell Recipient Six-Year Graduation Rate [Full- and Part-time students]: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-or part-time in their first semester and who received a Pell Grant during their first year (summer to spring) and who graduated from the same institution by the summer term of their sixth year. Students who were flagged as enrolled in advanced graduate programs that would not earn a bachelor's degree were excluded. Source: State University Database System (SUDS).

PBF-10. FAMU: Number of Bachelor's Degrees Awarded to Transfers with AA Degrees from FCS: This is a count of first-major baccalaureate degrees awarded to students who entered as FCS AA Transfers. First majors include the most common scenario of one student earning one degree in one Classification of Instructional Programs (CIP) code. A student who earns two baccalaureate degrees under two different degree CIPs is counted twice. Source: State University Database System (SUDS).

PBF-10. FAU: Total Research Expenditures: Total expenditures for all research activities, including non-science and engineering activities. Source: As reported by each institution to the National Science Foundation annual survey of Higher Education Research and Development (HERD) based on the NSF rules and definitions.

DEFINITIONS (cont.)

PBF-10. FGCU: Number of Bachelor's Degrees Awarded to Hispanic & African Americans: Race/Ethnicity data is self-reported by students to the university. This includes students who self-select Hispanic, Non-Hispanic African Americans, and those who select multiple races, including Black/African American. Degree data is based on first-major counts only; second majors are not included. Source: State University Database System (SUDS).

PBF-10. FIU: Number of Post-Doctoral Appointees: The number of postdoctoral appointees awarded annually. Source: National Science Foundation/National Institutes of Health Survey of Graduate Students and Postdoctorates in Science and Engineering (GSS).

PBF-10. FPOLY: Percent of Bachelor's Graduates with 2 or more Workforce Experiences: The percentage of Bachelor's recipients who completed at least two of the following four workforce experiences: external internships, industry-sponsored capstone projects, undergraduate research (from an externally funded research grant), and certifications. Source: Florida Polytechnic University student survey data reported to the Florida Board of Governors.

PBF-10. FSU: Number of Bachelor's Graduates who passed an Entrepreneurship Class: The number of Bachelor's recipients who passed one or more graded Entrepreneurship courses before graduating and while not above Excess Hours. Source: Florida State University student data reported to the Florida Board of Governors.

PBF-10. NCF: Percent of FTIC Graduates Completing 3 or more High Impact Practices: The percentage of graduating seniors who started as FTIC students and who complete three or more high-impact practices as defined by the National Survey of Student Engagement (NSSE) and the Association of American Colleges & Universities. High-impact practices include: (1) capstone project or thesis, (2) internships, (3) study abroad, (4) writing-intensive courses, (5) living-learning communities, (6) undergraduate research, (7) first-year experience, (8) learning communities, (9) service-learning, and (10) collaborative projects. Multiple activities within the same category only count once (e.g., a student completing three internships has completed one high impact practice). Source: New College of Florida student survey data reported to the Florida Board of Governors.

PBF-10. UCF: Percent of Bachelor's Degrees Awarded to African American and Hispanic Students: Percent of degrees is based on the number of baccalaureate degrees awarded to Hispanic and non-Hispanic African American students divided by the total degrees awarded - excluding those awarded to non-resident aliens and unreported. Source: State University Database System (SUDS).

PBF-10. UF: Endowment Size (M): Assets invested by an institution to support its educational mission. Source: National Association of College and University Business Officers (NACUBO) and Commonfund Institute's annual report of Market Value of Endowment Assets.

PBF-10. UNF: Percent of Undergraduate FTE in Online Courses: Full-time equivalent (FTE) student is a measure of instructional activity that is based on the number of credit hours that students enroll. FTE is based on the Integrated Postsecondary Education Data System (IPEDS) definition, which divides undergraduate credit hours by 30. Online, or distance learning, courses provide at least 80 percent of the direct instruction using some form of technology when the student and instructor are separated by time or space, or both per Section 1009.24(17), Florida Statutes. Source: State University Database System (SUDS).

DEFINITIONS (cont.)

PBF-10. USF: 6-Year Graduation Rates (FT/PT): The first-time-in-college (FTIC) cohort is defined as undergraduates entering in fall term (or summer continuing to fall) with fewer than 12 hours earned since high school graduation. The rate is the percentage of the initial cohort that has either graduated from the same institution by the summer term of their sixth academic year. Both full-time and part-time students are used in the calculation. Source: State University Database System (SUDS).

PBF-10. UWF: Percent of Baccalaureate Graduates Completing 2+ Types of High-Impact Practices: The percentage of graduating seniors completing two or more high-impact practices as defined by the Association of American Colleges & Universities. High-impact practices include: (1) first-year seminar & experiences, (2) common intellectual experience, (3) writing-intensive courses, (4) collaborative assignments & projects, (5) diversity/global learning, (6) ePortfolios, (7) service learning, community-based learning, (8) internships, (9) capstone courses & projects. Multiple activities within the same category only count once (e.g., a student completing three internships has completed one high-impact practice). Source: University of West Florida student data reported to the Florida Board of Governors.

Preeminence Research University (PRE)

PRE-A: Average GPA & Average SAT: An average weighted grade point average of 4.0 or higher on a 4.0 scale and an average SAT score of 1200 or higher on a 1600-point scale, an average ACT score of 25 or higher on a 36 score scale, or an average CLT score of 83 or higher on a 120 score scale using the latest published national concordance tables developed by the College Board, ACT, Inc., and Classic Learning Initiatives, LLC for fall semester incoming freshmen, as reported annually. FTIC—FCS AA Transfer Students earning an Associate in Arts degree from a Florida College System Institution prior to high school graduation are excluded from this metric.

PRE-B: National University Rankings: A top-50 ranking on at least two well-known and highly respected national public university rankings, reflecting national preeminence, using the most recent rankings. Sources: Fiske Guide, QS World University Ranking, Times Higher Education World University Ranking, Academic Ranking of World University, U.S. News and World Report National University, U.S. News and World Report National Public University, U.S. News and World Report Liberal Arts Colleges, Forbes, Washington Monthly Liberal Arts Colleges, Washington Monthly National University, and the Wall Street Journal/College Pulse.

PRE-C: Freshmen Retention Rate: Freshman Retention Rate (full-time, FTIC) cohorts are based on first-year undergraduate students who enter the institution in the fall term (or summer term and continue into the fall term). Percent retained is based on those who are enrolled during the second fall term. Source: State University Database System (SUDS).

PRE-D: 4-year Graduation Rate: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-time in their first semester and had graduated from the same institution by the summer term of their fourth year. Students who were enrolled in advanced graduate programs during their 4th year were excluded. Source: State University Database System (SUDS).

DEFINITIONS (cont.)

PRE-E: National Academy Memberships: National Academy Memberships held by faculty. Source: Board staff searches the online directories of the National Academies of Sciences, Engineering, and Medicine and provides member counts based on 'affiliation' (including shared affiliation) and excludes deceased members.

PRE-F: Total Annual Research Expenditures: Total expenditures (in millions of dollars) for all research activities (including non-science and engineering activities). Source: As reported by each institution to the National Science Foundation annual survey of Higher Education Research and Development (HERD) based on the NSF rules and definitions.

PRE-G: Science & Engineering Research Expenditures in Non-Health Sciences: Research expenditures within Science & Engineering in non-medical sciences. Source: As reported by each institution to the National Science Foundation annual survey of Higher Education Research and Development (HERD) based on the NSF rules and definitions.

PRE-H: National Ranking in Research Expenditures: The NSF identifies eight broad disciplines within Science & Engineering: Computer Science, Engineering, Environmental Science, Life Science, Mathematical Sciences, Physical Sciences, Psychology, and Social Sciences. The rankings by discipline are determined by BOG staff using the NSF online database.

PRE-I: Patents Awarded: Total utility patents awarded for the most recent three calendar year period. Based on legislative staff guidance, Board staff query the USPTO database with a query that counts patents before excluding design patents: "University Name".as. and @pd >=YYYYMMDD<=YYYYMMDD AND (B1.AT. OR B2.AT.). System totals may include duplicate counts if the same patent is awarded to staff/faculty at more than one SUS institution. Source: United States Patent and Trademark Office (USPTO).

PRE-J: Doctoral Degrees Awarded Annually: Includes doctoral research degrees and professional doctoral degrees awarded in medical and health care disciplines. Also includes veterinary medicine. Source: State University Database System (SUDS).

PRE-K: Number of Post-Doctoral Appointees: The number of postdoctoral appointees awarded annually. Source: National Science Foundation/National Institutes of Health Survey of Graduate Students and Postdoctorates in Science and Engineering (GSS).

PRE-L: Endowment Size (M): Assets invested by an institution to support its educational mission. Source: National Association of College and University Business Officers (NACUBO) and Commonfund Institute's annual report of Market Value of Endowment Assets.

PRE-M: Total Annual Science & Engineering Research Expenditures: Research expenditures within Science & Engineering disciplines. Source: As reported by each institution to the National Science Foundation (NSF) annual survey of Higher Education Research and Development (HERD) based on the NSF rules and definitions.

DEFINITIONS (cont.)

Key Performance Indicators (KPI)

KPI-1: Public University National Ranking: A top-50 ranking on at least two well-known and highly respected national public university rankings, reflecting national preeminence, using the most recent rankings. Sources: Fiske Guide, QS World University Ranking, Times Higher Education World University Ranking, Academic Ranking of World University, U.S. News and World Report National University, U.S. News and World Report National Public University, U.S. News and World Report Liberal Arts Colleges, Forbes, Washington Monthly Liberal Arts Colleges, Washington Monthly National University, and Wall Street Journal/College Pulse.

KPI-2: Freshmen in Top 10% of High School Class: Percent of all degree-seeking, first-time, first-year (freshman) students who had high school class rank within the top 10% of their graduating high school class. Source: As reported by each university on the Common Data Set.

KPI-3: Time to Degree for FTICs in 120hr programs: This metric is the number of years between the start date (using the student entry date) and the end date (using the last month in the term degree was granted) for a graduating class of first-time, single-major baccalaureates in 120 credit hour programs within a (summer, fall, spring) year. Source: State University Database System (SUDS).

KPI-4: Percent of Bachelor's Degrees Without Excess Hours: This metric is based on the percentage of baccalaureate degrees awarded within 110% of the credit hours required for a degree based on the Board of Governors Academic Program Inventory. This metric excludes the following types of student credits: accelerated mechanisms, remedial coursework, non-native credit hours that are not used toward the degree, non-native credit hours from failed, incomplete, withdrawn, or repeated courses, credit hours from internship programs, credit hours up to 10 foreign language credit hours, and credit hours earned in military science courses that are part of the Reserve Officers' Training Corps (ROTC) program. Starting in 2018-19, the calculation for this metric included a new type of statutory exclusion of up to 12 credit hours for students who graduated in four years or less. This metric does not report the number of students who paid the "Excess Hour Surcharge" (Section 1009.286, Florida Statutes). Source: State University Database System (SUDS).

KPI-5: Six-Year FTIC Graduation Rates [full-& part-time students]: The first-time-in-college (FTIC) cohort is defined as undergraduates entering in fall term (or summer continuing to fall) with fewer than 12 hours earned since high school graduation. The rate is the percentage of the initial cohort that has either graduated from the same institution by the summer term of their sixth academic year. Both full-time and part-time students are used in the calculation. Source: State University Database System (SUDS).

KPI-6: FCS AA Transfer Two-Year Graduation Rate [full-time students]: This transfer cohort is defined as undergraduates entering in fall term (or summer continuing to fall) from the Florida College System with an Associate in Arts (AA) degree. The rate is the percentage of the initial cohort that has either graduated from the same institution by the summer term of their second academic year. Only full-time students are used in the calculation. Students who were flagged as enrolled in advanced graduate programs in their 2nd year were excluded. Source: State University Database System (SUDS).

DEFINITIONS (cont.)

KPI-7: Pell Recipient Four-Year Graduation Rate [for full-time FTIC]: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-time in their first semester and who received a Pell Grant during their first year and who graduated from the same institution by the summer term of their fourth year. Students who were flagged as enrolled in advanced graduate programs that would not earn a bachelor's degree were excluded. Source: State University Database System (SUDS).

KPI-8: Bachelor's Degrees Awarded & KPI-9: Graduate Degrees Awarded: This is a count of first-major baccalaureate and graduate degrees awarded. First majors include the most common scenario of one student earning one degree in one Classification of Instructional Programs (CIP) code. In cases where a student earns a baccalaureate degree under two different degree CIPs, a distinction is made between "dual degrees" and "dual majors." Also included in first majors are "dual degrees," which are counted as separate degrees (e.g., counted twice). In these cases, both degree CIPs receive a "degree fraction" of 1.0. The calculation of degree fractions is made according to each institution's criteria. Source: State University Database System (SUDS).

KPI-10: Bachelor's Degrees Awarded to African-American & Hispanic Students: Race/Ethnicity data is self-reported by students to each university. The non-Hispanic, African-American, and Hispanic categories do not include students classified as Non-Resident Alien or students with a missing race code. Degree data is based on first-major counts only; second majors are excluded. Percentage of degrees is based on the number of baccalaureate degrees awarded to non-Hispanic African-American and Hispanic students divided by the total degrees awarded, excluding those awarded to non-resident aliens and unreported. Source: State University Database System (SUDS).

KPI-11: Percentage of Adult (Aged 25+) Undergraduates Enrolled: This metric is based on the age of the student at the time of their fall term enrollment, not their age upon entry. As a proxy, age is based on birth year, not birth date. Unclassified students with a high school diploma (or GED) and above are included in this calculation. Source: State University Database System (SUDS).

KPI-12: Percent of Bachelor's Degrees in STEM & Health & KPI-13: Percent of Graduate Degrees in STEM & Health: The percentage of degrees that are classified as STEM or Health disciplines by the Board of Governors in the Academic Program Inventory. These counts include second majors. Second majors include all dual/second majors (e.g., degree CIP receive a degree fraction that is less than 1). The calculation of degree fractions is made according to each institution's criteria. The calculation for the number of second majors rounds each degree CIP's fraction of a degree up to 1 and then sums the total. Second majors are typically used when providing degree information by discipline/CIP, to better convey the number of graduates who have specific skill sets associated with each discipline. Source: State University Database System (SUDS).

KPI-14: Licensure & Certification Exam Pass Rates: The average pass rates as a percentage of all first-time examinees for Nursing, Law, Medicine, Veterinary, Pharmacy, Dental, Physical Therapy, and Occupational Therapy, when applicable. The average pass rate for the nation or state is also provided as a contextual benchmark. The Board's 2025 System Strategic Plan calls for all institutions to be above or tied the exam's respective benchmark. The State benchmark for the Florida Bar Exam excludes non-Florida institutions. The national benchmark for the USMLE exams is based on rates for MD degrees from U.S. institutions. Source: BOG staff analysis of exam pass rates provided by institutions or licensure/certification boards.

DEFINITIONS (cont.)

KPI-15: National Academy Memberships: National Academy Memberships held by faculty. Source: Board staff searches the online directories of the National Academies of Sciences, Engineering, and Medicine and provides member counts based on 'affiliation' (including shared affiliation) and excludes deceased members.

KPI-16: Percent of Undergraduates Engaged in Research: Numerator includes graduating seniors who completed an honors thesis, worked on their own research and/or creative activity topic with the guidance of a faculty member (individually or jointly), submitted an article or research for publication or exhibited research at a professional/academic conference (individually or jointly). The denominator includes graduating seniors who complete the survey. While senior exit surveys are traditionally administered in the spring term, institutions may include senior exit surveys from other terms in a given academic year if they are available. Source: Student survey data reported to the Florida Board of Governors.

KPI-17: Total Research Expenditures: Total expenditures (in millions of dollars) for all research activities (including non-science and engineering activities). Source: As reported by each institution to the National Science Foundation annual survey of Higher Education Research and Development (HERD) based on the NSF rules and definitions.

KPI-18: Research Expenditures Funded from External Sources: This metric reports the research expenditures funded from federal, private industry, and other (non-state and non-institutional) sources. Source: As reported by each institution to the National Science Foundation annual survey of Higher Education Research and Development (HERD) based on the NSF rules and definitions.

KPI-19: Utility Patents Awarded: The number of utility patents in a calendar year, excluding design, plant, or similar patents. Based on legislative staff guidance, Board staff query the USPTO database with a query that counts patents before excluding design patents: "University Name".as. and @pd >=YYYYMMDD<=YYYYMMDD AND (B1.AT. OR B2.AT.). System totals may include duplicate counts if the same patent is awarded to staff/faculty at more than one SUS institution. Source: United States Patent and Trademark Office (USPTO).

KPI-20: Number of Licenses/Options Executed Annually: Licenses/options executed in the fiscal year for all technologies. Source: As reported by universities on the Association of University Technology Managers Annual (AUTM) annual Licensing Survey.

KPI-21: Number of Start-up Companies Created: The number of start-up companies that were dependent upon the licensing of University technology for initiation. Source: Association of University Technology Managers Annual (AUTM) annual Licensing Survey.

DEFINITIONS (cont.)

Enrollment Planning (ENRL)

ENRL-1: Fall Headcount Enrollment by Student Level and Student Type: This table reports the number of students enrolled by student type categories. These headcounts only include those students who were seeking a degree – unclassified students (e.g., dual enrolled) are not included. The student type for undergraduates is based on the 'Type of Student at Most Recent Admission'. The first-time-in-college (FTIC) student was admitted in the same fall term or in the preceding summer term, including those who were re-admitted as FTICs. Source: State University Database System (SUDS).

ENRL-2: Percent of Resident Baccalaureate-Seeking Resident Undergraduates Earning 15+ Credits: This table reports the percent of baccalaureate-seeking resident undergraduates who earned fifteen or more credit hours during the fall term as reported on the Term Credit Hours Earned element (#01089). This includes the pass/fail courses in which the student earned a passing grade and excludes audited courses. Source: State University Database System (SUDS).

ENRL-3: Full-Time Equivalent Enrollment by Course Level: This table reports full-time Equivalent (FTE) enrollment, which is a measure of all instructional activity, regardless of fundability, that is based on the number of credit hours that students enroll. This FTE calculation is based on the Integrated Postsecondary Education Data System (IPEDS) definition, which divides undergraduate credit hours by 30 and graduate credit hours by 24. Pursuant to Section 1013.31, Florida Statutes, Board facilities staff use this data as a key factor in the calculation of facility space needs for institution educational plant surveys. Source: State University Database System (SUDS).

ENRL-4: Percent FTE Enrollment by Method of Instruction: This table reports the percentages of FTE enrollment that is classified as Distance Learning for all students at all campuses regardless of funding source. Distance Learning is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both per Section 1009.24(17), Florida Statutes). Effective for the fall 2020 term, Board staff added a new FLEX value to capture the course sections in which there is a mix of modalities within the same course section that allows students the option to switch between the modalities during the term. Course sections with mixed modalities that are predetermined/scheduled by the instructor at the start of the term to accommodate classroom capacity constraints and result in all students in the section having the same percentages of remote work is not a FLEX section and are considered one of the traditional non-FLEX designations. These designations account for planned adjustments to academic calendars (like being remote after thanksgiving or spring break) that are known at the beginning of the term. Unexpected adjustments to the academic calendar are not captured by these designations. FLEX courses start the term as FLEX. No academic calendar adjustment can change a non-FLEX into a FLEX. Source: State University Database System (SUDS).

ENRL-5: Non-Resident Undergraduate Enrollment Rate: This table reports the percentage of undergraduates enrolled who are considered non-residents for tuition purposes in a given fall term per Sections 1009.21(10)(a) and 1009.21(2), Florida Statutes. Source: State University Database System (SUDS).
