(Thereupon, Session IV was held:) MR. FUNK: Good afternoon, and welcome to the 3 student open forum giving the students the

1

2

4 opportunity to meet with and hear from Interim

5 President Jeanette Nunez. And she will talk about

6 her vision for university moving forward. And we'll 7 be accepting questions, not only those questions

8 that were provided in advance and have been curated

9 by the local team but also then we will reserve 10

10 minutes at the end of that session so that anyone 11 who wants to ask any questions from the floor will

12 have that opportunity. So we're looking for an

13 engaging next hour. This will last for one hour. I

14 don't anticipate this, but I'm required to say it.

15 As part of our university community, we strive to

16 foster a respectful and open environment. All

17 perspectives are welcome. Please be mindful, though

18 of maintaining decorum, unruly, threatening, or

19 disruptive behavior that may disrupt the forum is

20 prohibited. Any individual violating this rule will

21 be asked to leave the event.

My name is Bill Funk, and I'm the president and

23 founder of a, an executive search firm that

24 specializes in recruiting university presidents a

25 firm by the name of Funk Associates. Ironically

Page 2 1 members of the community. So you were well

2 represented by those, by both the past and the

3 president of student government. The Presidential

4 Search Committee conducted its work in the Court of

5 Florida statutes and the Florida Board of Governors

6 Regulations.

All of today's sessions are available to the

8 university community to attend in person or on the

9 FIU webcast. Each session has been scheduled for one

10 hour. After the candidate's presentation, we will

11 take time to address questions from the university

12 community. Thank you to everyone who submitted a

13 question in advance of today's session. Excuse me.

14 And the local team has curated those advanced

15 questions into general themes. The goal is to cover

16 as many of those themes as possible in the time

17 that's allowed. I think Jeanette, I think we've done

18 7 for 11 in all three previous sessions. But if you

19 did not submit a question in advance, you have the

20 opportunity at the end of the transcribed questions

21 to ask what you would like.

22 Ms. Nunez is, as you know, the Interim

23 President of Florida International, a position she

24 has held since February as interim president. She

25 serves as the Chief Executive Officer of the

Page 3

1 enough we've recruited over 400 presidents and

2 chancellors around the country over the last 40

3 years. And we were pleased to assist FIU on this

4 current search. And also, though, we've had

5 relations with the university going back two and a

6 half decades when Modesto Maidique was still the

7 president. But we've been able to observe the growth

8 and blossoming of this great university over that

9 period of time and have been delighted to be a tiny

10 part of that evolution. In consultation with the

11 Florida Board of Governors FIU Board of Trustees

12 Chair, Roger Tovar appointed a 15th member

13 presidential search committee. The chair of that

14 search committee is sitting in the front row today

15 and deserves a lot of credit for her task that we're

16 on this committee. Carlos Duart. The individuals on

17 the search committee, though were appointed in

18 accordance with Florida Board of Governor's

19 Regulations represent the Florida Board of 20 Governors, the FIU Board of Trustees, including two

21 former chairs, FIU Foundation Board of Directors,

22 the current faculty senate chair, a distinguished

23 professor, the current student government president

24 who represented you very well, and a former student

25 government president as well as other distinguished

Page 5

Page 4

1 university and is responsible for the operation and

2 administration of the university, including

3 efficient and effective budget and program

4 administration, leading the university to accomplish

5 its education, missions and goals, monitoring

6 educational and financial performance, and serving

7 as the university's key spokesperson. Prior to her

8 appointment, as interim president, Ms. Nunez served

9 as the Lieutenant Governor of the State of Florida.

10 She is a proud double alumnus. She earned a

11 bachelor's degree in political science and

12 International Relations from FIU in 1994, and

13 subsequently earned a Master's in Public

14 Administration from FIU. Before serving as

15 Lieutenant Governor, she represented Miami Dade

16 County in the Florida legislature for eight years.

17 She came to public office with years of experience

18 as Vice President of governmental Affairs at Jackson

19 Health Systems and similar leadership positions at

20 Kendall Regional Medical Center and at Ventura 21 Hospital and Medical Center. It is my pleasure at

22 this time to introduce to you Mrs. Jeanette M Nunez.

23 MS. NUNEZ: Well, good afternoon. It's an honor

24 to be here certainly in the fourth and final forum

25 that is geared specifically for students. But I know

1 there's probably a mix of individuals and

- 2 stakeholders here, and so I will apologize in
- 3 advance for those of you who have heard my speech
- 4 for probably three sessions. But I think it's
- 5 important that we get to engage directly with
- 6 students.

7 What I'll say is that for those of you that

- 8 don't know me, I grew up in this community, born and
- 9 raised a stone's throw away from FIU. I was born to
- 10 Cuban immigrants that came to this country in 1961,
- 11 fleeing communism. And what my parents instilled in
- 12 me, and that still rings true today for me and for
- 13 my family, is values that consist of love of this
- 14 country, patriotism that consist of hard work ethic,
- 15 that consist of prioritizing higher education.
- And I'm so thankful that my parents instilled
- 17 those values in me, and that I'm able to be here
- 18 today, quite frankly, because of their role and
- 19 their legacy in my life, but also because of this
- 20 institution as was stated by Bill Funk. And I want
- 21 to thank him publicly for all the work that he's
- 22 done throughout the search process. But those values
- 23 and the institution today that I'm proud to be
- 24 leading as interim president, had a tremendous
- 25 impact on my life.

1 Florida. And I got to tell you that vision has set

- 2 us on a course and a trajectory that has had an
- 3 impact on so many lives, and certainly many of you

Page 8

Page 9

- 4 that are here, those of you that are watching, and
- 5 even those that were in earlier sessions, I've said
- 6 this I think throughout most of the sessions, but I
- 7 truly believe it that were it not for FIU If you
- 8 could think about the impact that would have on our
- 9 community, on us individually, so many careers might
- 10 have been stymied, and so many lives might have been 11 upended.
- We know that Miami is a hotbed of activity in
- 13 many areas, in many fields. Perhaps for not for FIU,
- 14 those industries would not have come to South
- 15 Florida. Because we know the role we play not only
- 16 in educating our students, but providing them
- 17 opportunities as they look to after graduation as
- 18 they look to get involved in their fields and become
- 19 professionals in their own right.
- 20 So really and truly, FIU has had a critical
- 21 impact on my life and that of my family. I'm proud
- 22 to say that not only was I a student here alongside
- 23 my high school sweetheart and college sweetheart, my
- 24 husband of almost 30 years, we both attended FIU
- 25 together. He went the business route, I went the

Page 7

Page /

I first stepped foot on campus in 1989. I was a

- 2 high school senior. I got my first summer job
- 3 working at the Office of the Registrar. And perhaps
- 4 there are some student employees here that have
- 5 worked throughout their time here at FIU and one of
- 6 our many student employment programs.
- And what I'll tell you is that experience was
- 8 really life changing for me because I was able to
- 9 appreciate FIU from a firsthand perspective, and it
- 10 really set me on the course to not only return the
- 11 following year to that same job, but also enroll at
- 12 FIU. I only enrolled in one university, I only
- 13 applied at one university. And I know it's always
- 14 very competitive. And I think somebody mentioned
- 15 this in a previous session that perhaps they
- 16 would've gotten in today if they were held to the
- 17 same standards that we have at FIU.
- And so that's a question mark. Maybe I would've
- 19 had to go elsewhere for her higher education, but
- 20 I'm proud of that. I was an incoming freshman at a
- 21 time where the university was still young. It was
- 22 still growing. If you talk about FIU in the past,
- 23 and you look at where we've come from, 53 years ago, 24 we were an abandoned airfield, and somebody had a
- 25 vision to create a state university in South

1 political science and international relations route.

- 2 I graduated in 1994. I pursued my master's
- 3 subsequent to that.
- Shortly after graduating, I was offered a
- 5 position to go work in the state legislature as a
- 6 legislative aid to a state representative and the
- 7 state senator. And that was a really unique time. I
- 8 was able to apply the skills that I had learned here
- 9 as a student on the theory that I have been taught
- 10 by many professors, some of which are still here
- 11 today and some of which have gone on to other
- 12 universities. And I've actually reached out to some
- 13 of those professors to let them know that they had
- 14 an impact on my lives.
- And so, for new students that are here, stay
- 16 connected to your professors. You never know where
- 17 they'll end up. Hopefully they'll stay here at FIU
- 18 for many, many years. But I think it's important
- 19 that you remain connected to the university, but
- 20 also to your professors, because clearly, they've
- 21 made an impact on your lives. And I'm really proud
- 22 of the degree that I've received and the education,
- 23 the quality education that I received.
- 24 So working in the state legislature, that is
- 25 where I developed my love for public service. That

3 (Pages 6 - 9)

1 is where I saw firsthand the opportunities to help

- 2 people, to be able to help them navigate all of the
- 3 challenges with state government, to be able to
- 4 provide constituent service, to be able to get
- 5 involved in policy making. And I say this, and I'll
- 6 put on my political science hat just for a second.
- 7 Really and truly, there is no other area of
- 8 government. I believe state government has the most
- 9 impactful relationship to the constituents that they
- 10 serve. And so stay connected. I don't know how many
- 11 of you, show of hands, are in the Sipa school,
- 12 public affairs. Okay. Quite a few. Excellent. So
- 13 what I would say is make sure that you understand
- 14 the implications and the impact of the degree that
- 15 you're studying and how that has on our community,
- 16 on our state, on our future.
- So I will take off my political hat and I'll
- 18 get back to my experience and my involvement with
- 19 FIU over the course of many decades. Working in the
- 20 legislature, developing those skills, understanding
- 21 state government, understanding the budget process
- 22 and how FIU in particular is really impacted by the
- 23 decisions made at Tallahassee and in DC and locally.
- 24 So I can tell you the last three months as interim
- 25 president have been exciting, they've been busy so
  - Page 11
- 1 much going on for the university, but I'm really
- 2 excited about the past, what FIU has accomplished in
- 3 53 short years, and how I've been connected to this
- 4 university over the span of four decades.
- So having worked in state government shortly
- 6 thereafter, about nine years of serving in that
- 7 role, I went to work at Jackson Memorial Hospital
- 8 another institution that has a profound impact on
- 9 our community. And there I got to understand
- 10 healthcare from a policy making perspective, a
- 11 budgetary perspective, but also, again, that public
- 12 service impact on the community.
- The time that I spent at Jackson was a time
- 14 that really allowed me to develop specific skills
- 15 around healthcare policy. And I believe those skills
- 16 translate really well to where we're at today as a
- 17 university. And then as we were working with state
- 18 leaders, working with congressional leaders, it was
- 19 then that I decided to run for office. Many people
- 20 think because I pursued a political science degree,
- 21 I've always had in mind the thought of running for
- 22 office. And I can tell you nothing was further from
- 23 the truth. So we just finished commencement season,
- 24 and I always like to give a few words of reflection
- 25 to our students. And what I told them there, and

- 1 what I'll tell you for those of you that are
- 2 pursuing a career, whether nursing or political
- 3 science or anything in between, what I tell you is
- 4 really imagine the impossible and turn it into the
- 5 inevitable. Because never in my time here at FIU,
- 6 never in my time serving in the state legislature as
- 7 a legislative aid did I ever envision a future in
- 8 which I would be an elected office, nor did I ever
- 9 envision a future in which I would be leading my
- 10 alma mater.
- 11 So I credit a lot of my trajectory and my
- 12 history and my background to FIU to opening up those
- 13 doors, to exposing me to possibilities that at the
- 14 time I didn't really think through. So when I was
- 15 contemplating running for office, as you can
- 16 imagine, I don't know how many of you have perhaps
- 17 volunteered on campaigns or been involved in any
- 18 shape or form supporting candidates or causes. I can
- 19 tell you when I decided to run for office, the
- 20 election was in 2010.
- It was a grueling campaign. Knocking on doors
- 22 is an important part of campaigning, it's an
- 23 important part of getting to understand your
- 24 community that you hope to represent. And so when
- 25 you knock on thousands of doors in the summer heat,

Page 13

Page 12

- 1 I'm sure you can appreciate. It was a tough task,
- 2 but it made me a better servant leader. It made me a
- 3 better representative because I understood what was
- 4 critically important to the community that I was
- 5 seeking to represent. So that direct connection, I
- 6 think, is an important lesson that, again, I want to
- 7 impart on you. In particular, you students. Staying
- 8 connected, understanding the issues on a personal
- 9 level is always something that's going to benefit
- 10 you. So I ran for office. I was successful thanks to
- 11 the support of so many constituents and voters that
- 12 put their trust in me. And it was an experience of a
- 13 lifetime, being able to be in the halls of
- 14 Tallahassee, making decisions, understanding the
- 15 implications of votes that were very challenging,
- 16 and on some issues, very complex and very
- 17 controversial issues.
- 18 But I really was able to hone leadership skills
- 19 there. I served in many leadership roles, including
- 20 chair of the Higher Education and Workforce
- 21 Committee. That was a committee that gave me
- 22 in-depth experience around the implications for
- 23 policy, for budget as it impacted our state
- 24 university system. I also was chair of government
- 25 operations appropriations. So understanding the

4 (Pages 10 - 13)

- 1 challenges of budgeting, and of course, having to
- 2 deal with all the competing priorities as you set
- 3 aside funding for certain areas and certain
- 4 priorities. And then I also was selected by my peers
- 5 in my last term to be Speaker Pro Tempore. So I was
- 6 tasked with the responsibility of managing the
- 7 chamber, ensuring decorum, ensuring adherence to
- 8 policies and regulations and rules, ensuring that
- 9 legislation would move efficiently through the
- 10 chamber. Working with 119 other state
- 11 representatives.
- We're a large state. We have 120 state
- 13 representatives. We have 40 state senators each with
- 14 competing priorities, each with differences in
- 15 opinions, each with different backgrounds. But I
- 16 have to say I pride myself on being someone that was
- 17 well regarded, well respected. I've worked
- 18 collaboratively across party lines, across chambers,
- 19 and I think I earned the respect of my colleagues
- 20 because of my approach to listening, to learning, to
- 21 be able to come from different backgrounds, come
- 22 from different regions.
- 23 I can tell you the interests and the priorities
- 24 of North Florida are very different from those of
- 25 South Florida. But I think it's a testament to the

- 1 ultimately, I won't bore you with the details, it
  - 2 was a long but short process. I reached back out to
  - 3 the governor, and I told the congressman at the
  - 4 time, I told him that I would join him on the ticket
  - 5 and serve as his lieutenant governor candidate.
  - 6 Now, I say that, but all the while we were in a
  - 7 very competitive, very heated race. We were in every
  - 8 corner of the state. Sometimes we were in five
  - 9 different cities. And if you've ever toured the
  - 10 state, you understand, it's a big state. You wake up
  - 11 one morning, you're in Orlando, the next visit is
  - 12 Pensacola, the visit after that is Tampa, then you
  - 13 go to Fort Myers, and you ended up in Miami. I can
  - 14 tell you sometimes you're wondering, where is it
  - 15 that I'm at right now? Who am I speaking to? So it
  - 16 was just a whirlwind of a campaign.
  - 17 It was exciting, it was stressful. But at the
  - 18 end of the day that election day, we won, and it was
  - 19 very exciting. We were looking forward to
  - 20 championing issues that were important to us, that
  - 21 we had campaigned on. But little did depend on the
  - 22 time that we would be facing something that no one
  - 23 could have envisioned. And that was a global
  - 24 pandemic with COVID-19.
  - We faced hurricanes, we faced wildfires, we

Page 15

- 1 process. If you are able to work across all of those
- 2 competing priorities, all of those different players
- 3 and characteristics I think that moves well for
- 4 leadership no matter if you're leading in the
- 5 Florida House or at FIU.
- 6 So I spent eight years serving in the Florida
- 7 House. I was going to take a hiatus from politics. I
- 8 was going to leave because as you know, we're
- 9 term-limited here in Florida, you can only serve
- 10 eight years at a time. And so it was that summer,
- 11 late that summer that I received a phone call from a
- 12 little known congressman, Ron DeSantis.
- 3 I did not know him. I had never met him. We had
- 14 never even exchanged pleasantries. He reached out
- 15 and asked me if I would consider joining him on the
- 16 ticket as his lieutenant governor. It was something
- 17 that I spoke with my family about. And at the time,
- 18 I politely declined and told them while I wished him
- 19 well, it wasn't something really that I had in my
- 20 plans. And so I thought that was the end of that.
- 21 I moved on, I pursued some other opportunities
- 22 that I was looking at. And then a few weeks later, I 23 received a barrage of calls from people in elected
- 24 office, people in the community, people that I
- 25 considered friends encouraging me to reconsider. So

Page 17

Page 16

- 1 faced building collapses all within our first turn.
- 2 So if that doesn't put your feet to the fire in
- 3 terms of the types of issues that we were contending
- 4 with, I can tell you I learned a lot of lessons
- 5 throughout that process. Lessons of leadership,
- 6 lessons of collaboration, lessons of
- 7 decision-making. And so it was a really unique time,
- 8 and it was a really unique experience for me to be
- 9 able to hone my leadership skills.
- Part of the portfolio that I was assigned in
- 11 terms of responsibilities that I as Lieutenant
- 12 Governor had were areas that included cybersecurity,
- 13 Department of Health, Space, Florida, which is our
- 14 state's economic development arm around the
- 15 aerospace industry, combating human trafficking.
  - 6 I was asked to lead the Healthcare Innovation
- 17 Council. I was asked to lead our census committee. I
- 18 was asked to lead our 250th anniversary, our semi
- 19 centennial. So a lot of important initiatives, a lot
- 20 of important policy areas that I was responsible
- 21 for. And so, again, dealing with complex teams, 22 dealing with major issues, all allowed me to hone my
- 23 leadership skills.
- 24 Then in February of this year, the board of
- 25 trustees announced that I would be serving as

5 (Pages 14 - 17)

1 interim president. So in the last three months, I

- 2 can tell you it has been an intense whirlwind of a
- 3 three month tenure. We have had so much to do here
- 4 at FIU, working with the team, getting to understand
- 5 the important issues, getting to understand what our
- 6 priorities are, ensuring that we are adhering to the
- 7 students.
- What I put out in my first communication to the
- 9 university community, was that everything we do
- 10 should begin and end with the students. And I say
- 11 that not because it's trivial or not because it's
- 12 easy to say, because that's the reason we exist. The
- 13 students that we serve, all 55,000 of them have to
- 14 be at the forefront of every decision we make.
- 15 Whether it's decisions around funding, around
- 16 buildings, around finances, all of the things that
- 17 we have to do with administration, which sometimes
- 18 may look very far away from you as a student, I can
- 19 assure you from my perspective, and I know the
- 20 entire executive team, they look at it from the
- 21 perspective of student success. And we're proud of
- 22 all we've accomplished at FIU.
- When you look at where we're at, and I talked
- 24 about our past 53 years ago, but you look at where
- 25 we're at today, we are a preeminent, as designated
- 1 by the State of Florida, preeminent top performing,
- 2 top 50 public research university. We are a Carnegie
- 3 R1 designated research university. What does that
- 4 mean? It's not just a ranking or it's not just a
- 5 designation. That means that only 3% of our
- 6 universities have that designation. And so we've
- 7 earned it because of the research we're conducting,
- 8 because of the excellence we've demonstrated and
- 9 because of the impact we have on our community. So
- 10 all of those things, I think, point to where FIU is
- 11 today. I'm very proud. Like I said, I've been
- 12 connected.
- I was a double Panther. My children have
- 14 attended here. My older two graduated from here. The
- 15 minimum one is still attending, pursuing a
- 16 professional degree. So I've seen the impact, I've
- 17 seen the excellence, both as a student myself, but
- 18 also as a parent. When we're investing in education
- 19 as consumers, whether it's for our children, for
- 20 ourselves, you have to be mindful of the choices you
- 21 have in higher education. And I cannot think of a
- 22 better choice than investing in FIU because we've
- 23 shown that we're a top performing university.
- We've shown the impact we have on research.
- 25 Right now, we are measured every year by the state

Page 18

1 in terms of our metrics. What are the metrics? They

Page 20

Page 21

- 2 consist of things like graduation rates, they
- 3 consist of things like, do our students get jobs
- 4 after they graduate? We are number one in the entire
- 5 state university system, four out of the last five
- 6 years. And what does that mean? We're competing with
- 7 other universities like UF, like FSU, like UCF, like
- 8 USF. And every year for the last five years, we've
- 9 ranked number one. That is something to be proud of.
- 10 That is something that we should be excited about as
- 11 students, as faculty, as administrators as the
- 12 community, we should be proud that FIU is performing
- 13 at the highest levels and we're competing.
- And quite frankly, we are on par pound for
- 15 pound, we are punching way above, way above our
- 16 weight class. And I'm always proud to say that there
- 17 is no other university that can compete with us on
- 18 those metrics. And we're showing it, not just
- 19 because we say it, but because we prove it with our
- 20 data. And when we talk about where we want to be,
- 21 what the future for FIU looks like, I firmly believe
- 22 our future is bright. I believe our possibilities
- 23 are boundless. We have so much going on right now,
- 24 and we can talk for a long time.
- 25 I know we want to leave time for questions, but

Page 19

1 we can talk for a long time about what we're doing

- 2 in the healthcare space. Just this week, we
- 3 officially signed our partnership with Nicklaus
- 4 Children's Hospital. Previously, we had signed a
- 5 partnership with Baptist Health South Florida. What
- 6 does that mean? What does that mean for our
- 7 students? If you're not a med student or a nursing
- 8 student, why should you care?
- Well, I'll tell you why you should care,
- 10 because that partnership brings a whole other level
- 11 of excellence to our community. We're training
- 12 tomorrow's doctors and nurses and tomorrow's
- 13 healthcare professionals, and we're developing
- 14 tomorrow's cures. So again, what does that mean to
- 15 you all? What I'll tell you is we are making
- 16 tremendous strides on the research front.
- 17 When you think about healthcare, everybody's
- 18 going to be a consumer of healthcare at one point or
- 19 another. We know that our community, our students
- 20 tend to stay, 80% tend to stay in South Florida. So
- 21 that means our best and brightest doctors, our best
- 22 and brightest nurses, they're going to stay in this
- 23 community. They're going to be caring for you, for
- 24 your loved ones for our family members. And when we 25 have someone like Dr. Azzam, if you don't know about

6 (Pages 18 - 21)

1 Dr. Azzam, I encourage you to take out your phones

- 2 and Google the work that she's doing,
- 3 groundbreaking, transformative research.
- 4 She's dealing with an issue of pediatric cancer
- 5 that if you can imagine as a parent, as a student
- 6 getting a diagnosis like that, it will bring you to
- 7 your needs. But Dr. Azzam, what she's doing in terms
- 8 of transforming lives, giving hope to families, she
- 9 had a young man who had a very hard to treat cancer,
- 10 eight years old, Logan. He had a very grim
- 11 prognosis. He ended up getting into her clinical
- 12 trial. And not only is Logan two years later still
- 13 cancer free, 80% of the patients that are seen by
- 14 her trial are seeing significant improvements and in
- 15 many cases are in remission.
- So if that doesn't talk about impact that FIU
- 17 is having in transforming lives, certainly I think
- 18 that's something we really need to be proud of.
- 19 We're going to grow that healthcare enterprise.
- 20 We're going to see on campus a clinical facility.
- 21 You're going to be able to not only experience it
- 22 from the student perspective god forbid you need to
- 23 use it from a clinical perspective, but FIU will be
- 24 there every step of the way.
- 25 So I'm really excited about that. When you

- es 1 that when we have student participation in
  - 2 athletics, not only do they perform better on the
  - 3 field, but they perform better academically.
  - 4 There's a direct link between student
  - 5 participation in athletics and student success.
  - 6 There's also a direct link between athletics and
  - 7 alumni connection. So soon, maybe some of you this
  - 8 semester, maybe next you'll be graduating. You'll be
  - 9 walking across that stage and I'll see you excited
  - 10 with your casts all decorated and looking forward to
  - 11 the promises of tomorrow.
  - 12 But what we like to do in each ceremony is
  - 13 challenge our students to stay connected, to be
  - 14 engaged alumni. We have 330,000 plus alumni. We want
  - 15 to make sure that you always think of FIU as home,
  - 16 that you'll be forever blue and gold. So the student
  - 17 experience really comes with a lot of facets to it,
  - 18 which is why I've spent time meeting with our
  - 19 student government association, Greek life, veteran
  - 20 students, student athletes.
  - 21 I've supported them by going to games, meeting
  - 22 with them, even graduate students. I got a call from
  - 23 a graduate student that wanted to talk about
  - 24 academic rigor. Was interested in being part of the
  - 25 solution. Was interested in being on an advisory

Page 23

- 1 think about our multi-campus that we have down the
- 2 road engineering, we have in this same day a
- 3 pristine, beautiful campus that is providing
- 4 services in many areas. We have so much potential. I
- 5 think FIU's biggest challenge, and I've heard this
- 6 from the community, is that we don't brag about
- 7 ourselves enough. We don't tell our story enough.
- 8 So I'm going to challenge you students in the
- 9 audience, when you talk about FIU, be proud. Wear
- 10 that Panther shirt show up at our games. We want you
- 11 to be engaged from the student perspective. And I
- 12 know we're going to get to this in a little bit with
- 13 questions. I hear a lot from students. I've made it
- 14 a mission to meet with as many students as possible.
- 15 I look forward to hearing input from students.
- 16 I'd like to walk across campus and see what are
- 17 students engaged in? What are they doing? Are they
- 18 excited? Are they happy to be here? I know sometimes
- 19 when finals come along, you don't look so happy. But
- 20 what I'll say is that we want you to be engaged with
- 21 faculty, engaged with administration, stay
- 22 connected.
- 23 If you're a student athlete, I know athletics
- 24 are important to you, but they should be important
- 25 to the entire FIU community. Why? Because we know

Page 25

Page 24

- 1 board. So I challenged him, come back, meet with me,
- 2 meet with the provost. Talk to me about what you
- 3 would like to see. What are the things from an
- 4 industry perspective?
- Again, when you graduate, you want those great
- 6 jobs. We have a responsibility to prepare you, but
- 7 we also have a responsibility to work with industry
- 8 to make sure that they understand that FIU is
- 9 providing the talent, that we're going to ensure
- 10 it's relevant, that it's cutting edge, and that our
- 11 students, that they're going to want to hire our
- 12 students above and beyond any other student.
- 13 I hear that a lot in different fields, and my
- 14 goal is to make that a reality for every student,
- 15 for every college that we have within our
- 16 university. So we have a lot to talk about, about
- 17 the future. We have a strategic plan that's the
- 18 roadmap for where we want to go.
- In 2030, we want to be top 30. And I say that
- 20 because I'm excited about keeping the trajectory on
- 21 a steep, upward climb. But I also say that because
- 22 it's going to take everyone here. It's going to take
- 23 our faculty, it's going to take our students, it's
- 24 going to take the community, it's going to take

25 funding. So we're going to do our part to make sure

- 1 that we are beating down the doors in Tallahassee,
- 2 that we're working in DC, that we're providing those
- 3 industry alignment opportunities. But it is very top
- 4 of mind. We want to continue to grow. We want to be
- 5 viewed as a school of first choice. We don't want to
- 6 be anyone's backup. We shouldn't be anyone's backup.
- 7 We should be the first choice because of the ROI,
- 8 because of the value, because of our innovation,
- 9 because of our faculty, because of our rankings. And
- 10 so I'm excited to be able to champion some of those
- 11 issues. I'm excited to serve as interim president.
- 12 And once the board decides, I am excited about being
- 13 the seventh university president, the first female,
- 14 the first alumna to lead FIU because I believe our
- 15 best days are yet to come.
- I believe that we have unlimited opportunities,
- 17 to dream big as my board vice chair challenged me.
- 18 But just this weekend, we had the opportunity to
- 19 celebrate our Torch Awards, which is the highest
- 20 honor any alumni can receive from the university.
- 21 And one of our recipients said, it's not enough to
- 22 just dream big, you have to dream bigger. So that's
- 23 my pledge to you. I will dream bigger, I will dream
- 24 best for the university, and I'll continue to fight
- 25 every step of the way to ensure that FIU is going to

- 1 workshopped our next housing unit that will be
  - 2 developing 1200 additional beds. So that's coming

Page 28

Page 29

- 3 soon, as soon as construction will allow us. But
- 4 we're laser focused on that. They talk about
- 5 experiences and opportunities for internships.
- We know that you want more internship
- 7 opportunities. We know that you want to be tied to 8 industry. And so really, I view that as a charge for
- 9 me, for all of our administrative teams, for our
- 10 deans, for our faculty to come up with a
- 11 collaborative process in which we can challenge
- 12 industry to be engaged with that FIU, to offer
- 13 opportunities, to hire our students, to mentor our
- 14 students. I've said this off and on throughout the
- 15 morning, but when you complete a technical
- 16 internship, you're 65 more likely to have a job upon
- 17 graduation. That number skyrockets to 95% if you
- 18 complete two technical internships. So what does
- 19 that tell you? The more internship opportunities,
- 20 the better job outcomes you will likely have. So
- 21 that is something that I've heard from many 22 students. And then the third thing which I'm sure
- 23 you can assume is about athletics. What do our
- 24 athletics look like? Are we winning? Are we going to
- 25 put the products on the field? Are we going to be

Page 27

- 1 be the future, and the future's going to be FIU. So
- 2 thank you all very much.
- MR. FUNK: Thank you, Jeanette. And let's go
- 4 right at it. How have you interacted with students
- 5 and what are your plans to enhance the FIU student 6 experience?
- MS. NUNEZ: It's a great question, especially
- 8 since I see some students in the audience, and I'm
- 9 sure they want to know the answers to that too. I
- 10 tried to touch on a little bit of all of that in the
- 11 opening statement, but I think it's worthy of diving
- 12 a little bit deeper. So the student experience in
- 13 terms of the student involvement that I've had thus
- 14 far, the interactions I've had, the students that
- 15 I've heard of that I've heard from, they've all been
- 16 really very focused on a handful of things. And
- 17 maybe some students here have different suggestions 18 and different ideas and options for us to ponder.
- 19 But I'll tell you, they really center around three
- 20 things. Number one, and I won't talk about parking
- 21 because I know, I've heard it all. Well, parking's
- 22 the problem, I get it. But they talk about three
- 23 things. They talk about housing and how they want to 24 live on campus and how they need more opportunities.
- 25 So news flash, we're working on that. We just

1 excited to show up in games?

- So I can tell you I'm really excited about
- 3 athletics and I know perhaps some faculty, I don't
- 4 know any of the room, they think we should focus
- 5 truly on our mission, which is educating our
- 6 students. But I agree, I think there's room to do
- 7 both. And I think athletics is an important part of
- 8 that campus experience. And it came out in our
- 9 strategic plan, in our surveys, in all the
- 10 discussions we have with students. They want to be
- 11 excited to go to a game. So stay tuned.
- 12 We have a lot of exciting things coming for
- 13 this season for all of our sports, because I think
- 14 it's important that we support all of our sports.
- 15 I've been to probably 17 different games. Everything
- 16 from tennis to women's basketball, some baseball to
- 17 softball. And so when you talk about athletics in
- 18 the grander context, it's really about the campus
- 19 life. And so athletics, it's Greek life.
- 20 I want to encourage participation in
- 21 extracurricular activities. Things are going to be
- 22 meaningful for them. Four years goes by very
- 23 quickly. It goes by in a flash and you come to the
- 24 end of your time here at FIU. You don't want to look
- 25 back and regret, I didn't get involved with that

8 (Pages 26 - 29)

1 fraternity, or I didn't do a summer abroad, or I

- 2 didn't engage in intramural. And so I think that
- 3 whole experience is something that when you look at
- 4 the opportunities FIU has, I think we have ample
- 5 opportunity to grow in that space.
- 6 MR. FUNK: How has your experience in public
- 7 service shaped your vision for the future of FIU?
- 8 Can you share how your background and experience
- 9 have prepared you for this role?
- MS. NUNEZ: And I think I tried to touch a
- 11 little bit on it in terms of public service. And
- 12 while that may have been in the context of elected
- 13 office that I held, I think I shared this role, this
- 14 institution is very much hardwired towards public
- 15 service. We are providing a public service, which is
- 16 educating our students, providing them with pathways
- 17 and opportunities for professional growth.
- And really, when you look at where education is
- 19 today, and we see how technology and innovation is
- 20 disrupting jobs and industries, I think these
- 21 students are going to be students that are going to
- 22 be engaged in lifelong learning. And whether that's
- 23 perhaps changing career trajectories and coming back
- 24 to retrain or rehome your skills, or that's in
- 25 getting micro-credential or trying to upskill in

- 1 leader in that particular consortium. And I'm glad

  - 2 to report that in this case I was successful in
  - 3 convincing and making my case and we were
  - 4 subsequently added, as was our partner, Nicklaus
  - 5 Children's.
  - 6 So those are the types of examples that I just
  - 7 want to share because I think it's easy to talk
  - 8 generalities, but I think it's important that the
  - 9 students understand what those relationships that
  - 10 I've been able to bring over the course of many
  - 11 decades, what that experience I have in serving in
  - 12 various roles can do for the university. And as I
  - 13 said on day one, everything we do needs to begin and
  - 14 end with the student.
  - 15 And I think that when you talk about the
  - 16 student success that we've been able to achieve, and
  - 17 I don't really want to drag the comments on about
  - 18 how well we're performing, but when you talk about
  - 19 the students and where we're at today and what we
  - 20 want to continue to accomplish for the future, I
  - 21 think that my role and my background in public
  - 22 service is really going to lend itself well for, for
  - 23 the future of our students.
  - 24 MR. FUNK: One of our advanced questions relates
  - 25 to you having been the interim now since February,

Page 31

- 1 certain areas, especially around technology, FIU can
- 2 be all of those things for the students as it
- 3 relates to the student experience.
- But when you talk about public service and you
- 5 talk about my experience and how it has uniquely
- 6 positioned me to lead at this time, higher education
- 7 and FIU in particular we are a State university, we
- 8 are constantly dealing with the issues that are
- 9 permeating in Tallahassee or in Washington DC. And
- 10 so I think it would be foolish to think that we are
- 11 insulated from the decisions that are made at all
- 12 levels of government.

800-726-7007

- We are very much a product of the State. We are
- 14 very much subjected to the State from a funding
- 15 perspective, from a policy making perspective. And
- 16 so I think the relationships I've been able to
- 17 develop over the course of three decades, being able
- 18 to pick up a phone and call a legislator that is
- 19 working on -- I'll give a specific example, working
- 20 on a consortium of research universities and a
- 21 hospital of partners of which FIU was initially left 22 out of.
- And I made the call and I made the case that
- 24 FIU is a major research university, a partner with
- 25 Nicklaus Children's, should absolutely be a thought

Page 33

Page 32

- 1 and this particular questionnaire, questioner wanted
- 2 to know what is something you have seen that you
- 3 think we do great at FIU and what do you think we
- 4 could do better?
- 5 MS. NUNEZ: Well, I've had this question asked
- 6 previously in other sessions. So full disclosure,
- 7 I've had time to think about it and I haven't
- 8 changed my answer yet, and I think I'll stay
- 9 consistent. So again, for those of you that have sat
- 10 through previous sessions you can probably zone out
- 11 a little bit now. But I think what we do really
- 12 well, I've already talked about it ad nauseum, I've
- 13 talked about our success, I've talked about our
- 14 performance.
- 15 I've talked about everything from our
- 16 graduation rates to our retention rates, to how well
- 17 our students do on things like bar passage rate.
- 18 We're the number one law school in terms of bar
- 19 passage rate. 100% of our medical students placed in
- 20 a residency program three years in a row.
- We are number one at so many things. We have
- 22 the only underwater research lab in the world. So
- 23 many unique aspects to FIU and I think a lot of
- 24 that, and a lot of those successes are really

25 important that you talk about the future of FIU and

9 (Pages 30 - 33)

- 1 where we're at. And did I answer your question? I
- 2 think we probably have got sidetracked. What do we
- 3 do well? So that. And then what can we do better? I
- 4 think it is always important, and I've said this
- 5 every step of the way, FIU needs to tell its story
- 6 with more vigor, with more energy, with more 7 passion.
- 8 We need to be at the forefront of every
- 9 conversation. We need to be driving the narrative,
- 10 we need to be driving the agenda for higher
- 11 education. You can't-- Really, FIU is a microcosm of
- 12 what the future of our country is going to look
- 13 like. FIU is succeeding today whereas these other
- 14 universities are going to look to FIU to figure out
- 15 the model, the recipe for success. And I believe
- 16 that is what we need to do a better job. We need to
- 17 tell our story. I take that as a personal charge. I
- 18 need to be the chief spokesperson, the chief
- 19 ambassador. And I want to make sure everybody gets
- 20 tired of hearing us talk about FIU success.
- 21 MR. FUNK: In light of the growing national
- 22 conversations around political ideology and its
- 23 interface with higher education. How do you create a
- 24 campus that supports open dialogue while upholding
- 25 the rights and dignity of all students? Second part
  - Page 35
- 1 of the question, how do you plan to ensure that
- 2 university remains a welcoming and safe environment
- 3 for students from diverse backgrounds, including
- 4 international students, undocumented immigrants, and
- 5 LGBTO+ individuals?
- 6 MS. NUNEZ: So this question also has been
- 7 raised, I think, in every session. So I'll start by
- 8 saying I firmly believe that FIU is a safe and
- 9 welcoming campus for everyone. That includes our
- 10 students, no matter what category you want to
- 11 subscribe to. That includes our faculty, that
- 12 includes our visitors, our staff, our
- 13 administration.
- 14 And I look to my right and I see Chief Casas
- 15 here, and I've said this in every one of the
- 16 sessions thus far. The chief, the men and women at
- 17 FIU PD, do a great job of not only ensuring safety,
- 18 but also developing the rapport and relationships
- 19 with our students. And so I've heard from more than
- 20 one faculty member, more than one student, they've
- 21 had positive interactions with our police
- 22 department. And that's not true necessarily
- 23 everywhere.

800-726-7007

- 24 So when you look at what has happened across
- 25 the country, different campuses, not necessarily

- 1 someone here in Florida, but in other states, and
- 2 you see the violence that has unfolded. You've seen

Page 36

- 3 buildings being occupied by students. You've seen
- 4 the students not being allowed to go to class. In
- 5 particular the rise in anti-Semitism across college
- 6 campuses is something that is an indictment, in my
- 7 opinion, on higher education and on those leaders
- 8 that have allowed that harassment, that persecution,
- 9 that violence to permeate on their campuses. And so
- 10 here at FIU, that will never happen on my watch.
- 11 I will never allow any student to be
- 12 persecuted, to be prevented from going to class. So
- 13 I think that is something that we have to be mindful
- 14 of. And what I would say to the students, because
- 15 again, some of you are in your late teens, early
- 16 '20s, you're still sorting out what you think, what
- 17 you feel, and what your thoughts are on any given
- 18 topic. And that's the beauty of higher education.
- 19 This is a place where you should come to question,
- 20 to seek truth, to pursue excellence, to think
- 21 critically to challenge views.
- 2 But what I would say to all of you that are
- 23 here that are students, is make sure you keep some
- 24 level of stability. I think the important part of
- 25 what FIU has done well is maintaining a level of
  - Page 37
- 1 stability. I think we can do better in terms of2 allowing diversity of thought, different viewpoints
- 3 on different issues. I think you have to be
- 4 respectful of someone's views.
- FIU and the Florida Board of Governors, which
- 6 oversees all of our universities, you subscribe to a
- 7 statement of free expression. We recognize and we
- 8 support academic freedom, but we also recognize, and
- 9 I'm very clear, that there is a very, very stark
- 10 line between academic freedom and what people use as
- 11 academic freedom to incite violence and some of
- 12 those other examples that I said. So I think it's
- 13 important for students to maintain that level of
- 14 civility. Part of what I want to bring to campus,
- 15 and I'll be announcing in the coming days,
- 16 presidential speaker series.
- 17 And what I'm hoping to bring are, are people
- 18 from very different backgrounds, very different
- 19 perspectives probably on their polar opposites in
- 20 terms of their political beliefs and their
- 21 ideological beliefs. But I want to bring those
- 22 people to campus for them to have a debate, for them
- 23 to engage with students so that you can hear how
- 24 people can debate, how they can differ and do it in
- 25 a civil manner or respectful manner.

10 (Pages 34 - 37)

So my hope is to do more of that. And I'll be

- 2 announcing soon, so stay tuned for information
- 3 around that. But I think we need to encourage and
- 4 foster critical thinking. We need to encourage and
- 5 foster freedom of speech and diversity viewpoints,
- 6 diverging viewpoints. And I think the more we can
- 7 impress upon our students that is a healthy thing to
- 8 do, and that's what we should ascribe subscribe to
- 9 do, I think that that's going to be beneficial for
- 10 our students in the long run.
- MR. FUNK: Great. Thank you, Jeanette. There's
- 12 not a lot of time left in this particular segment,
- 13 so why don't we go to questions from you in the
- 14 audience that you'd like to pose. There's no lack of
- 15 interest in --
- MS. NUNEZ: I'll say before we get to questions,
- 17 this has been the most amount of hands of any
- 18 session. So yes, I'm looking forward to it.
- MR. FUNK: And we're glad to see it. But we'll
- 20 start the front row and work our way back. Let's go.
- 21 Right here in the front. Second row.
- STUDENT MEMBER: Hello. Thank you, and good
- 23 afternoon. So related to the very recent question of
- 24 protecting academic freedom, DeSantis has tried to
- 25 purge ideologically that's his words, ideologic

- 1 purge.
- MS. NUNEZ: I'm sorry, could you put the
- 3 microphone up to your mouth, thank you.
- STUDENT MEMBER: So DeSantis has tried to have
- 5 an ideological purge. That's his words not mine. And
- 6 my concern, as you can guess, is that we will have
- 7 ideological purge at FIU as well. And there's
- 8 already instances of, for example, I forget which
- 9 one it is, but it's preventing instruction on gender
- 10 in high school classrooms and instances of courses
- 11 being taken up, the general core curriculum for
- 12 presenting certain ideologies. Now, that's not
- 13 necessarily saying that you can't do those things,
- 14 you can't teach those things. But the path, the
- 15 trajectory, you see the trajectory of lack of free
- 16 speech. So my question is, how are we going to put
- 17 like a concrete step of preventing that path from
- 18 moving forward? Where you can't even say a certain
- 19 ideology or a certain viewpoint in a classroom or
- 20 even a fear of stating your own ideology.
- 21 MS. NUNEZ: Thank you. So I think you brought up 21 between the investments that are made at the
- 22 a couple of topics, so I'll try to cover on both.
- 23 With regards to the general education reforms and
- 24 the curriculum, you mentioned that certain classes
- 25 aren't allowed to be taught. So it's not that

800-726-7007

1 they're not allowed to be taught. General education

Page 40

- 2 core classes, as we know, core curriculum. That's
- 3 something that's reviewed on a regular basis,
- 4 regardless. Way before it's happened really since
- 5 the beginning of time. And so when you have courses,
- 6 for example, and this is, I would say pre-- For your
- 7 reference, pre DeSantis. When there are courses that
- 8 are offered that don't have registration, that don't
- 9 have interest from students from a broad
- 10 perspective, there are instances where courses
- 11 haven't-- That they haven't had registration for
- 12 five years, and so those courses will drop off. And
- 13 so that's an ongoing review that the academics, the
- 14 folks that oversee academics are provost and
- 15 obviously the team looks at on an ongoing basis.
- With regards to the general education
- 17 curriculum review, yes, that was two years ago
- 18 legislation. And really from the perspective of
- 19 those courses can continue to be offered. They can
- 20 continue to be offered. There are electives. They're
- 21 not purged, they're not removed. But there is a
- 22 certain balance that taxpayers and that legislature
- 23 has been very mindful of in terms of the
- 24 investments. Because you come here and we're a great
- 25 school and the tuition's affordable, but there are

Page 39

- Page 41 1 significant investments that are made. And so the
- 2 investments, the legislature wants to make sure that
- 3 they make sense that they're providing pathways for
- 4 students. And I'll make up a name. I think there's a
- 5 course called Myths and Mysticism. I'm not saying
- 6 that that's the actual name of the course, but I'll
- 7 give that as an example because I think it's
- 8 important to students hear actual concrete examples.
- 9 But if there's a course, and that really doesn't
- 10 have any bearing on with regards to where we're
- 11 headed from the perspective of ensuring our students
- 12 are graduating on time, that they're being able to
- 13 get a degree in a certain area, then of course that
- 14 course can continue to be offered. Of course, it
- 15 could be an elective. As it remains to the general
- 16 education, the core requirements, we want to make
- 17 sure our students are well prepared. And those core
- 18 requirements are going to be foundational as you go
- 19 off into your major, and you may go into a
- 20 completely different area, but there is a balance
- 22 Tallahassee level, the state budget level, and where
- 23 these courses are going to end up in the core in the
- 24 general education curriculum.
- So it's a long-winded answer to tell you, yes,

11 (Pages 38 - 41)

1 there are classes that no longer are part of the 2 general education requirements. But that review will 3 be an ongoing process. And five years from now, they 4 may be different as well, and they may be different 5 for other reasons. I know we touched a little bit on

6 technology disruption, AI, quantum computing, big 7 data, any number of things that perhaps will be the

8 next iteration of what needs to be part of our core

9 premise. So that's going to be an ongoing 10 discussion.

11 MR. FUNK: Second row then we'll work our way 12 back. But I'm trying to get you some of each side.

STUDENT MEMBER: Hi, my name is Aniela Cabrera. 14 I'm a student reporter for Panther Now, we're a

15 student newspaper. And thank you for being here. And

16 my question is mainly about the safety of students 17 emotionally and physically, since that is a pretty

18 big role, universities play. FIU is also a second

19 home for most especially international students. My

20 question is, how will ICE contribute to the

21 wellbeing of our students as well as the

22 minimization of our DEI programs? Many students on

23 campus are worried about both topics and how it will

24 affect them, mainly because we are predominantly

25 Hispanic and Latino community, and we do have

Page 42

1 campus. Even if we had not signed it, ICE can still

Page 44

Page 45

2 come on campus. They can come if they wanted to

3 execute a detention or an arrest warrant, that is

4 true of any law enforcement agency. They notify FIU

5 PD, they come in, they provide support. That's how

6 it works. Certainly, I know that the chief has done

7 a great job within FIU PD. Like I said previously,

8 they know our community, they know our students, and

9 they want to be in control of that situation. So I 10 support that from the perspective of, I would much

11 rather be FIU PD in control of that process,

12 understanding our students, having full insights

13 into what is going to occur. And so the issue also,

14 I don't know if you touched on it, perhaps you did.

15 The issue of the visas, the F1 visas many of our

16 students as you recall, about a month ago when this

17 topic became very top of mind for faculty, for

18 students, one of the issues was the termination of

19 visas. There was roughly 18 students that have been

20 notified that their visas were being terminated. I'm

21 happy to report that all 18 of those students, those

22 F1 students, the visa students have been reinstated.

23 So they went through the process. There is a

24 process, and again, my point when I met with faculty

25 senate was understanding that we, FIU has no say

Page 43

1 students that are illegal.

MS. NUNEZ: Thank you. And I'll try to answer,

3 you brought up a couple of topics. So you mentioned 4 the emotional wellbeing of students, and I think

5 generally speaking, that's an issue and an area

6 that's of deep concern for the university. We know

7 that there are a lot of issues around mental health.

8 We understand that there is a significant interest

9 in expanding student services around those

10 particular areas. I think we do a really good job of

11 student health services. We're mindful as a team. I

12 know my first day as interim president, I went

13 around the room with the executive committee and the

14 top of the mental health came up quite frequently as

15 an area that we need to continue to monitor that we

16 need to continue to provide support. So from that

17 perspective, I think that we're very mindful of it.

You mentioned the ICE, and I assume you're

19 talking about the 287 G agreement, so we'll just

20 dive right into that. So as you know, the 287 G

21 agreement, which FIU PD signed as well as all the

22 other state universities that really was so that FIU

23 PD would be in control. Nothing in that agreement, 24 whether we signed it or not, would prevent ICE or

25 any other law enforcement agency from coming on

1 whatsoever in terms of visas, terminations,

2 reinstatements. That is something that we have zero

3 jurisdiction over. We simply have to be monitoring

4 back from the perspective of managing whatever comes

5 on the back end of that. So I think those were the

6 issues you mentioned.

STUDENT MEMBER: Hi, my name is Thomas. I am a

8 sophomore student and member of the Young Democratic

9 Socialist of America at FIU. According to a

10 statement you made in January, you reversed your

11 position, your previous opinion, that undocumented

12 students should be eligible for in-state tuition.

13 You said that in-state tuition has run its course,

14 if reversed, this will impact over 500 FIU students

15 ability to receive an education. You dismissed this

16 as an insignificant number, but these students are

17 vital members of our community. What is the reason

18 for your change in your opinion, and can you commit

19 to protecting working class immigrants against

20 attacks that jeopardize their safety and education?

MS. NUNEZ: So I don't recall saying

22 insignificant number perhaps in the context of the

23 broader 55,000 students. What I'll tell you is yes,

24 I will agree that when I sponsored that legislation,

25 we were a different place as a state, as a country

12 (Pages 42 - 45)

Veritext Legal Solutions

305-376-8800 800-726-7007

	Page 46			Page 48
1	and the impact was certainly much different at that	1		
	point in time. Fast forward to today, we're in a	3		
	much different place. The legislature has revealed	١.	SS:	
	that in-state tuition, and I did state that it had	4 5	,	
	run its course. We have a responsibility. We have	6	I, Chancelor Merritt, FPR certify that I was	
	many students, including students that are US	7	authorized to and did stenographically report the foregoing proceedings, and that the transcript is a	
	citizens, students that are here legally, students	′	true and complete record of my stenographic notes.	
	that have been working many jobs to try to pay for	8	I further certify that I am neither attorney	
	their tuition. So we have to have that starting	9	or party, nor am I related to or employed by any attorney or party connected with the action, nor am	
	point of what are we going to do and how are we		I financially interested in the action.	
	going to continue to support students especially	10	Dated this 21st day of May, 2025.	
	when you're talking about limited resources that we	11	Dated this 21st day of May, 2023.	
	have. No one, as you know, no one has the right to	12		
	be here illegally. No one has the right to demand that FIU has to fund these particular scholarships	13 14		
	or these particular rates. But we have to make very	15		
10 17	•	16   17	O	
17 18	I heard in the previous session about a student	17		
	that making sure that we understand that we would	18		
	love for private sector partnerships. I'm all about	19	Notary Public - State of Florida My Commission No. HH454299	
	looking for opportunities for our students to find		Expires: 10/20/2027	
	areas where they can be supported, where they can	20 21		
	perhaps apply for scholarships. But that's really	22		
	where we stand today. We have limited resources and	23		
	we have to ensure that we are looking at it	24 25		
	Page 47			
1	holistically from a broad perspective.			
2	MR. FUNK: I know we have a number of people who			
3	still have their hands up. We're out of time. And			
4	I'm wondering, is there a way we can have those			
5	individuals share their names with us.			
6	MS. NUNEZ: Sure. By all means, if they want to			
7	get their questions in, I'll be happy just to share			
	my responses. I'm sure someone here can find out the			
	ones that have their hands raised so we can address			
	their questions. Yeah.			
11	MR. FUNK: All right. So I guess we'll keep			
	those hands up and someone will be talking to you			
	and getting your names and maybe question.			
14	MS. NUNEZ: Yeah. If you could maybe just Can			
	you raise your hand? Just see her at the end. Yeah.			
16	MR. FUNK: All righty. Well, unfortunately we			
1 /	are on a tight timeline, and we thank you, Jeanette,			
_				

13 (Pages 46 - 48)

24

25 PM)

18 for taking time out of your busy schedule. And we 19 thank all the students who have come. I can't thank 20 you for your involvement, your questions. It's been 21 a very helpful and instructive session. And we will 22 get those questions answered for those who remain.

(Thereupon, Session IV was concluded at 2:45

23 But thank you for coming and God speed.
